PASSION FOR PERFECTION

JUPITER GROUP: TRULY GLOBAL

PASSION FOR PERFECTION

Jupiter Group is India's leading one-stop packaging solutions brand with almost everything in the ecosystem of flexible packaging. It has state-of-the-art manufacturing facilities spread over 250 acres of land in various parts of India and has a global footprint.

The group has grown rapidly with multiple business verticals namely Jupiter Laminators, LSKB Aluminium Foils, EngravePlus, FoodPro Pack, Inkofix, Jupalco and Films Division. The group provides a disproportionate advantage to its customers across categories such as FMCGs, food and condiments, beverages and liquids, home care, health care, wellness, anti-counterfeiting materials and many more.

The group has technology at its core, making it one of the most desirable global brands and making it accessible to global industry giants.

Jupiter Group is manufacturing in INDIA, for INDIA and for the World.

JUPITER GROUP'S JOURNEY BEGINS

2003

2 decades back Jupiter Group started its journey as a modest manufacturer of converting machines.

ADDING MORE STRENGTH

2005

After initial successes, Jupiter further added printing, lamination, pouching and slitting division.

METALLIZER & HOLOGRAPHY

2008

Further strengthening its packaging facilities, Jupiter installed world class 2450 mm metallizer and holography machines to give it an edge over the others.

FILMS DIVISION (CPP & PE LINES)

2009

Commenced to produce films for lamination and printing grade for various application. We added multilayer CPP and PE lines to provide custom made solutions for different laminates.

CHEMICAL DIVISION

2011

To get further desired results for the laminates, Jupiter installed modern manufacturing facilities for inks, adhesives and coatings.

GLOBAL REACH

2013

Our diverse product range caters to multiple industries allowing us to serve clients across USA, Africa, Europe and Sri Lanka.

CYLINDER UNIT "ENGRAVEPLUS"

2015

Jupiter offers the finest Rotogravure cylinders worldwide under the name EngravePlus.

LSKB ALUMINIUM FOILS

2018

Jupiter Group commenced LSKB Aluminium Foils and Containers which became a leading provider of aluminium foil based comprehensive packaging solutions.

FOODPRO PACKAGING

2019

FoodPro is a one-stop destination for all your food packaging needs including Retort Pouches. We are now manufacturing in India, for India and for the world.

INKOFIX

2022

Jupiter re-branded its Chemical Division under the brand name of Inkofix. It manufactures Inks, Adhesives, Coatings and Speciality Products.

JUPALCO

2023

Jupiter Aluminium Industries will do 'Backward Integration' manufacturing aluminium for the 'Make In India' models.

ONE STOP SOLUTIONS

2023

Today, Jupiter Group is truly global and is a one-stop destination for all variants of flexible packaging with in-house production.

HEADQUARTER

2024

Strengthened its Corporate Operations headquartered in the Millennium City of Gurugram.

EV SEGMENT

2025

Jupiter Group has now expanded its wings in the 'Electric Vehicle' segment.

JUPITER LAMINATORS

Jupiter Laminators, part of Jupiter Group, is **one of the largest multilayer flexible packaging companies** located in Sonipat, Haryana, India. It is backed by more than 20 years of industrial expertise and provides world-class multilayer flexible packaging solutions. It has delivered innovative and high-quality solutions tailored to meet diverse client needs, expanding its production volume from an initial 500 metric tons per month to an impressive 1,800 metric tons.

'Big in Size and Stature' in flexible packaging solutions, it has built a sizeable self-reliant ecosystem. It provides a sustainable edge over all other companies in the industry allowing Jupiter to cater to almost every category such as FMCGs, food & snacks, frozen products, beverages, liquids and pastes, health care & wellness, pet care, home care, industrial products, counterfeiting materials and others.

Jupiter Laminators boasts of state-of-the-art infrastructure designed to deliver exceptional quality and efficiency in its operations. The facilities are equipped with advanced technologies and machinery, enabling the production of high-quality laminates that meet stringent industry standards. The infrastructure includes modern extrusion lamination lines, high-speed rotogravure printing machines, high-speed slitters, latest generation pouching machines, Blown films, 7-layer barrier CPP line and latest generation Metallizer with adhesion plus features. It delivers best-in-class, sustainable and quality products, some of them being Stand-up Pouches, Pillow Pouches, Spout Pouches, Zipper Pouches and 3D Pouches.

JUPITER LAMINATORS

Jupiter Laminators works cohesively with some of the top brands in India and globally with **'Customer First' as part of its philosophy.** These partnerships underscore the company's reputation for delivering reliable and superior quality products. Specializing in flexible packaging solutions, Jupiter Laminators ensures that its offerings are both environment-friendly and technologically advanced, catering to the evolving demands of the market.

Through continuous investment in cutting-edge technologies and a customer-centric approach, Jupiter Laminators remains dedicated to setting new standards in the packaging industry, making it a **trusted partner for some of the world's leading brands** with its recycle-ready laminate structures.

The plant's layout is optimized for **streamlined processes, ensuring quick turnaround times and enhanced productivity.** Jupiter Laminators is committed to maintain a clean and safe work environment, adhering to international safety and environmental standards. Through continuous upgrades and investments in cutting-edge technologies, Jupiter Laminators ensures that its infrastructure remains at the forefront of the packaging industry, providing a solid foundation for delivering excellence in every product.

Jumbo Foil Roll

LSKB ALUMINIUM FOILS

With a comprehensive portfolio covering both industrial and consumer applications, LSKB produces **Heavy Gauge Foil, Medium Gauge Foil, Light Gauge Foil, and Ultra-Light Gauge Foil.** Its diverse product range serves multiple sectors and applications including Pharmaceuticals, Food Packaging, FMCGs, Semi-Rigid Foil Containers and Lidding Foil. Driven by a commitment to hygiene, safety, convenience and eco-friendliness, LSKB has rapidly emerged as a leading name in aluminium foil and foil-based innovative solutions.

The company offers two unique flagship products under the **HOMEFOIL** range: **Golden Embossed Foil and 2-in-1 Foil.** Its product portfolio further extends to ALU ALU, MISTIQUE, CHAPATI WRAP, PARSAL, ALU EASY and a vast range of food containers. In addition to this exceptional line-up of premium brands, an exciting range of upcoming brands is also in the pipeline. It has also launched the **thinnest 4.5 Micron & 5.3 Micron Aluminium Foils**, the first ever in **India**.

LSKB is truly an innovative, futuristic and global brand that is changing the aluminium foil landscape.

ENGRAVEPLUS

EngravePlus, a part of Jupiter Group, is India's reputed brand for Rotogravure Printing Cylinders. Its manufacturing unit, situated at Sonipat Haryana is equipped with world-class electro-mechanical engraving technology.

Cylinders have a major role to play in the manufacturing process of flexible packaging. It is the base for the industry, as the visual quality of packaging depends on how accurately the cylinders have been engraved to match the brand owner's expectations. With its modern infrastructure, effective quality controls, superior proofing output, great customer service and talented team, EngravePlus has become a popular name in providing high-quality printing and coating cylinders within the rotogravure printing industry. EngravePlus ensures **First Time Right Cylinders, Faster Turnaround, GSM Reduction and Efficiency in Shorter Time.**

The company intends to meet the customer's dynamic printing needs by providing customized printing and coating cylinders with the most appropriate gravure imaging. This is based on the latest technology, knowledge-based experience and customer feedback. We believe in complete customer satisfaction by providing innovative, productive and cost-effective gravure image carriers that can add value to the business of our partners.

INKOFIX

Inkofix, a part of Jupiter Group, is located in Sonipat, Haryana, India. **It is BRC / ISO 9001 certified, sustainable and world-class one-stop solutions provider** for quality inks, adhesives, coatings and speciality products. In Inks, it manufactures PU Inks, NC Inks, Vinyl-based Inks, Extrusion lamination inks and Water-based Inks. In adhesives, it manufactures Solvent-based Adhesives, Water-based Adhesives, Solvent-free Adhesives and Solvent-based White Adhesives. In coatings, it manufactures UV for Flexo and Gravure, Solvent-based Coating, Transfer Coating, Extrusion Primer, HR Coating, Foil Primer and Heat Seal Coatings. In speciality products, it has PU Binders, Acrylic Resins and many more. Our inks, adhesives and coatings meet the desired international standards of health, safety and sustainability by meeting various specifications such as Swiss Guidelines, Nestle Guidelines and BIS Standard regulation as required by the packaging industry for the safety of the packaging material.

Inkofix boasts of **High Yield, Competitive Costs, High Performance Non-Toulene Ink and Sustainable Water-based Ink for Gravure Press**.

FILMS DIVISION

CPP films offer excellent printability, high barrier properties and superior sealability, making them ideal for applications like bread wraps, clear bags and high-speed FFS packing lines. Produced on our advanced **BarrierCast PP line by Colines,** Italy, featuring a **7-layer, 8-extruder set-up** with 2500 mm working width, 900 kg/hr output and a maximum line speed of 450 m/min. Enhanced with the **Buhler Leybold Optics PAK 2500 vacuum metallizer**, we ensure precise layer adhesion and superior barrier performance through plasma pre-treatment and Adhesion Plus technology. CPP has become a material of choice in flexible packaging applications. PE is a major component used for sealing in flexible packaging. Its excellent heat seal strength makes it the best for the health care and pharmaceutical industry for packaging drugs for an extended period since it protects against contamination. Our **multilayer CPP & PE lines** enable us to provide **custom-made solutions for different laminates.**

Colines

JUPITER ALUMINIUM INDUSTRIES

Jupiter Aluminium Industries, JUPALCO, a part of Jupiter Group has **world-class Infrastructure** in India in flat-rolled products category. It is India's leading domestic aluminium production company having an end-to-end ecosystem of aluminium products while offering comprehensive solutions for customer's unique requirements.

JUPALCO has highly automated and state-of-the-art manufacturing capabilities of **upto 2.2 meters CC lines**, has **India's 1st Widest Width Aluminium Foil Stock**. It is intended for Backward Integration with LSKB Aluminium Foils. It will be the flagship company for "MAKE IN INDIA" models, producing **Highest Quality Aluminium and Thinnest Foils.**

JUPALCO has an **extendable capacity of 1,20,000 metric tonnes annually** to produce range of alloys, thickness, widths and tempers of aluminium sheets and coils while maintaining sustainable manufacturing practices and quality assurance in our products and services.

JUPALCO MANUFACTURING LIMITS

Products in sheet and coil form conforms to various national and international standards (IS 737, ASTMB 209 M-14, EN-573) and can also offer tailored specific customer requirements.

Parameters	Range (mm)	Tolerance (mm)
Thickness	0.09 - 5.0	±0.005 - 0.15
Width	40 - 2300	±0.1 - 0.5
Length	500 - 6000	±0.2 - 1.20
Coil ID & OD	152, 208, 308, 408 & 508	N/A

SUSTAINABILITY

Sustainability is part of the lifestyle at Jupiter Group. The business verticals have an unshakeable commitment and responsibility toward the environment. A lot of attention is paid to this urgent cause making everyone conscious of utilizing resources judiciously. It will enable future generations to continue accessing vital natural resources. **The group is also taking initiatives through various programs to improve sustainability which impacts human rights and biodiversity.** The group continues to offer its customers 'value-added solutions' while taking all the necessary steps to make its manufacturing processes and products more sustainable. The employees at the group are an integral part of its sustainability program and are well informed of its conservation efforts. Jupiter Group is committed to constantly improving its processes to **reduce carbon footprints.**
